

NAKURU COUNTY

Family planning budget analysis 2019/20

FAMILY PLANNING BUDGET ESTIMATE

The budget analysis conducted in October 2019 shows that the County Government of Nakuru does not have a budget line for family planning for FY 2019/2020. However, indirect family planning allocation* by the County Government of Nakuru was estimated for the period 2016/2017 to 2019/2020 as follows:

To arrive at these estimates, our study examined the following documents: Budget Policy Statement (BPS), Programme Budget Estimates, County Implementation Reports, Budget Review and Outlook Papers, sector budget documents from the MoH¹, RHMSU², KNH³ and MTRH⁴.

* Indirect allocation for family planning by County Governments was estimated per county based on workload statistics from the District Health Information System (DHIS) and subjected to county allocation to health. For FY 2019/20, the service utilization statistics and thus the rates used were recorded based on the average change between the preceding period. Then the weights were used to derive possible allocations for family planning.

KEY COUNTY STATISTICS

3.7
Total Fertility Rate¹

53.5%
Contraceptive Prevalence Rate (any modern method)¹

18.4%
Teenage Pregnancy⁵

64
Abortions per 1,000 women of reproductive age⁶

HIV prevalence⁷

13.8%
Women 15-24 who had sexual intercourse before exact age 15⁸

¹ Ministry of Health ² Reproductive and Maternal Health Services Unit ³ Kenyatta National Hospital
⁴ Moi Teaching and Referral Hospital ⁵ KDHS 2014 ⁶ APHRC 2013 ⁷ NACC: 2018 HIV Estimates ⁸ KDHS 2014

POLICY BASIS FOR FAMILY PLANNING BUDGET INVESTMENT

The County Government of Nakuru has two key policy documents that guide investment decisions about family planning for the county:

a. Nakuru County Integrated Development Plan (CIDP) 2018-2022

- Nakuru County, through the Nakuru County integrated development plan (CIDP) 2018-2022, commits to provide access to family planning services and contraceptives to residents as a strategy to promote “the health of women and children”.

b. Nakuru County Family Planning Costed Implementation Plan 2016-2021

- Nakuru County, through the Nakuru County family planning costed implementation plan (2016 - 2021) estimates that the county needs **KES. 48,217,650 million** for the county’s family planning programme for year three of the plan.

** Nakuru County Family Planning Costed Implementation Plan 2017-2022 earmarks investing in quality health infrastructure and human resources in all sub-counties. There County will invest in family planning especially for the youth and undertake awareness campaigns on the importance of family planning.

INTERNATIONAL FAMILY PLANNING COMMITMENTS (FP2020)

The Government of Kenya, at the 2017 London summit on family planning made the following commitments:

- Increase the portion of the national budget for family planning services, specifically through a budget line allocated to the family planning.
- All 47 counties will have a family planning costed implementation plan by 2020 and include specific goals and strategies for adolescents.
- All 47 counties have a family planning budget line by 2020
- Health facilities offering youth-friendly services increased from 10% to 30% by 2020 and 50% by 2025.

RECOMMENDATIONS

1. The County Government of Nakuru needs to honour its commitment of providing access to family planning services and contraceptives to residents as outlined in the County Integrated Development Plan (CIDP) 2018-2022 and the Nakuru County Family Planning Costed Implementation Plan 2016-2021.
2. The County Government of Nakuru needs to have a **family planning budget line** in future to enable the county meet Kenya’s FP2020 commitment.
3. The County Government of Nakuru needs to **increase the proportion of health facilities offering youth-friendly services** to at least 30% by 2020 in line with Kenya’s FP2020 commitment.

The County government is committed to ensure that family planning services are available and affordable to women of reproductive age and improve to access reproductive health services. With the Linda mama programme supported by the National Government, referral has improved and pregnant mothers attended by skilled health care providers has increased with reduction of maternal mortality.
