Family planning budget analysis 2020/21

FAMILY PLANNING BUDGET ESTIMATE

The budget analysis conducted in October 2020 shows that the **County Government of Nandi does not have a budget line for family planning** for FY 2020/2021. However, indirect family planning allocation* by the County Government of Nandi was estimated for the period 2016/2017 to 2020/2021 as follows:

To arrive at these estimates, our study examined the following documents: Kenya Health Policy (KHP)2014-2030; Kenya Health Sector Strategic Plan (KHSSP) 2018-2022; Economic Survey(various years); Medium Term Plan (MTP)2018 -22; Budget Outlook Paper (BOPA); Medium Term Expenditure Frameworks (MTEFs); Ministerial Performance Reviews (MPRs); Documents from Commission of revenue allocation (CRA) on approved county allocations; County FP Costed Implementation Plan; County Integrated Development Plans; Kenya Population and Housing Census(KPHC) 2019; and County budget.

*Indirect allocation for family planning by County Governments was estimated per county based on workload statistics from the District Health Information System (DHIS) and subjected to county allocation to health. For FY 2019/20, the service utilisation statistics and thus the rates used were recorded based on the average change between the preceding period. Then the weights were used to derive possible allocations for family planning.
